

Biodynamics2024

Presented  
by:

### Hamish Mackay

Hamish has been working with biodynamics for 45 years and presents biodynamics as a cost effective and enjoyable way to produce high quality food and fibre suitable for human health and well-being; at the same time improving our environment.

**Biodynamics** brings together the art and science of agriculture, challenging and stimulating our engagement with life on Earth as part of the Cosmos.

Biodynamics encompasses a multitude of successful farms, vineyards, orchards, market and home gardens of all shapes and sizes across the world. Biodynamics is also known for improving the nutrition, quality, taste and enjoyment of food.

### Spiritual Science

Rudolf Steiner used contemporary scientific methodology to explore the unseen but manifest dimensions of the world. Like all scientific research it can be followed by any individual who so chooses. Also, like all scientific research, the results can

# AN INTRODUCTION TO BIODYNAMICS

## Grazing, cropping and horticulture

340 Strathane Rd

Ellangowan (1/2hr SW Toowoomba)

Two days - 26 -27<sup>th</sup> November. 2018 - 9am - 5pm

You will learn how the biodynamic preparations contribute to the soil food web creating fertility and balance in your soil with regenerative ecological outcomes. Biodynamics is a cost effective and personally rewarding method of producing high quality food and fibre.

For commercial operators and garden enthusiasts.

*This two day workshop will include:*

- The life of the soil
- Creating fertility in your soil with biodynamics
- Managing your natural resources
- Practical application of the biodynamic preparations
- Using the planting calendar to optimise your production
- Developing risk management: Weeds, Pests, Diseases
- Agriculture and horticulture as contributors to environmental health

Books will be available for sale
